

EBUNOLUWA NOFIU

DATA ANALYST

Ibadan, Nigeria | +234 816 941 6255 | ebunnofiu@gmail.com | [LinkedIn](#) | [GitHub](#) | [My Portfolio](#)

KEY ACHIEVEMENTS

- Delivered a Q2 performance analysis across 3 properties for CEO/CFO review, identifying occupancy as the key constraint on revenue and flagging the weakest-performing asset to guide strategy.
- Cut compliance-reporting preparation time by 60% by designing interactive Power BI dashboards for senior management.
- Digitized 500+ legal records into a searchable database, improving document-retrieval speed by 40% and reducing manual filing bottlenecks.
- Cleaned and validated 50,000+ records, achieving 99.5% data accuracy and reducing reporting errors by 35%.

TECHNICAL SKILLS

BI & Visualization: Power BI (DAX, Power Query, data modeling) · Excel (PivotTables, Power Query, VLOOKUP/INDEX-MATCH, dashboards)

Data & Analysis: SQL (MySQL, PostgreSQL – joins, subqueries, CTEs, window functions) · Python (Pandas, NumPy) · ETL & data cleaning

Tools: Microsoft Office Suite (Word, PowerPoint)

EDUCATION

MSc Business Analytics – Quantic School of Business and Technology – Expected March 2027

BSc Sociology – Lead City University, Ibadan – Second Class Upper – November 2024

CERTIFICATIONS

Data Analytics Essentials (Cisco) · Data Analytics Training (GNT Nigeria) · Intermediate SQL (DataCamp) · Data Visualization in Excel (DataCamp) · Data Visualization in Power BI (DataCamp) · Intermediate Python (DataCamp)

WORK EXPERIENCE

Business & Data Analyst — Maxx Investments International Limited *July 2026 – Present*

Ibadan, Nigeria

- Analyze revenue, occupancy, and operating-cost data across multiple properties to surface performance gaps and improvement opportunities.
- Build and maintain Excel trackers for payments, expenses, and occupancy that feed management reports used in senior leadership decisions.

Legal Operations Analyst (NYSC) — Key Solicitors Legal Practitioners *July 2025 – July 2026*

Ibadan, Nigeria

- Digitized and organized 500 legal records into a database system, improving document-retrieval efficiency by 40%.
- Built a SQL- and Excel-based case-timeline tracking system across 50+ concurrent cases, achieving zero missed deadlines.
- Designed real-time compliance-monitoring dashboards that cut reporting-prep time by 60% for senior management.

Power BI & Data Analyst Intern — PwC Switzerland (Remote) *February 2025 – March 2025*

- Built five interactive Power BI dashboards translating KPIs into decisions for quarterly business reviews.
- Cleaned and validated 50,000+ records to 99.5% accuracy using SQL and Power Query, cutting reporting errors by 35%.

PROJECTS

Full case studies with dashboards: [My Portfolio](#)

- Retail Hub E-Commerce Analysis (SQL, Power BI): Normalized PostgreSQL database processing 100K+ transactions; flagged \$110K at-risk revenue and \$2M+ cross-sell opportunity.
- CRM Sales Pipeline Analysis (Power BI): Dashboard across 8,800+ opportunities; surfaced 30% deal loss at negotiation stage and a 24% agent performance gap.
- ESG & Financial Performance Analysis (Excel): Analyzed 300+ companies across 9 industries; found a 36.6% revenue-growth correlation with ESG scores.
